

MAMSYS

MICROSOFT CAPABILITIES

Enterprise Microsoft solutions delivered through expertise, ownership, governance, and long-term partnerships.

Who Is Mamsys

14+ years

DELIVERING ENTERPRISE SOLUTIONS

Founded in 2011, we've grown significantly while staying true to what defines Mamsys—experienced teams, close client collaboration and end-to-end accountability.

Global presence

UNITED STATES • EUROPE • INDIA

We combine local engagement with global delivery to support clients across regions and time zones.

Microsoft technology experts

PLATFORM DEPTH

Certified professionals across Microsoft 365, Azure, Dynamics 365 and Power Platform, supported by dedicated Microsoft and AI Centers of Excellence.

7 industries

SECTORS SERVED

Healthcare, energy and utilities, manufacturing, financial services, medical devices, CPG retail, and legal and compliance.

3 models

DELIVERY OPTIONS

Onsite, offshore and hybrid teams — plus managed services for ongoing support after go-live.

95%+

REPEAT BUSINESS

Reflecting long-term client relationships, consistent execution, and continued trust in our Microsoft expertise.

The Foundation **We Built**

For over **fourteen years**, Mamsys has delivered Microsoft-powered enterprise solutions through technical expertise, mature governance, and boutique agility.

1	MICROSOFT EXPERTISE <i>We engineer Microsoft solutions—not just implementations.</i>	Deep expertise across Dynamics 365, Azure, Microsoft 365, Power Platform, AI, cloud, and enterprise applications , delivered by teams that remain hands-on and accountable throughout the entire engagement.
2	END-TO-END OWNERSHIP <i>The people who shape the solution are the people who deliver it.</i>	Microsoft technology experts delivering end-to-end ownership—from discovery and solution design to implementation and support.
3	LONG-TERM PARTNERSHIPS <i>Partnerships that continue to grow.</i>	Clients who have stayed with us for 7 to 10 years and counting. Long-term trust earned through successful Microsoft implementations, continuous support, and measurable business outcomes.
4	DELIVERY GOVERNANCE <i>Fast decisions. Clear accountability.</i>	Every Microsoft engagement runs with a named executive sponsor and a defined governance framework . Leadership is always within reach when decisions are needed—without adding unnecessary layers between clients and the delivery team.

Enterprise standards. Boutique agility. Lasting partnerships.

MICROSOFT CAPABILITIES · SECTION 03

What We Do

MICROSOFT SOLUTION AREAS

**Dynamics 365 & ERP**
Finance, Operations, Business Central, ERP modernisation and process transformation.

**Application Modernisation**

**Integration & Automation**
APIs, enterprise integrations, data pipelines and system connectivity.

RECENT MICROSOFT PROJECTS STARTED

MICROSOFT 365 WORKPLACE

Enterprise Intranet Modernization

Modernised a SharePoint-based employee portal serving 4,000 employees across 20 departments.

WHY WE WON

Our experience in Microsoft 365, competitive delivery model, and understanding of enterprise workplace transformation gave us a distinct advantage.

MICROSOFT ECOSYSTEM

Dynamics 365 Project Operations

Renewable energy client — portfolio, resourcing, financials.

WHY WE WON

Existing domain knowledge enabled faster implementation and accelerated delivery.

MICROSOFT APPLICATION DEVELOPMENT

Identity Verification Platform

State tourism board — secure, mobile-first tourist identity verification and check-in, built on .NET.

WHY WE WON

Rapid, agile delivery on Microsoft technologies took a complex, evolving concept to production-ready.

THE PROJECT CASE STUDIES · SECTION 04

Proof In Delivery

Application modernisation, ERP modernisation and multi-entity finance transformation.

APPLICATION MODERNISATION + MANAGED SERVICES From Legacy Estate To Managed Platform

Global surgical implant manufacturer, USA · 36-month engagement · 12-person Mamsys team

VB6, .NET 1.1 and SQL 2005 rebuilt on .NET 6, React and EF Core; the data estate consolidated on SQL 2019 on Azure with HA/DR; the team that rebuilt the platform now runs it under agreed SLAs.

99% uptime sustained · 30–40% faster incident resolution · Dedicated run team

ERP MODERNISATION · RENEWABLE ENERGY From Tally To Business Central

India-based renewable energy company · multiple legal entities · 8-month engagement · 3-person team

Assessment-led move off Tally: sales and approval workflows with TAT tracking, lease, loan and treasury automation, and dual IND-AS / IFRS reporting with bank payment integration.

8 months to go-live · 25–30 agreements automated · Dual IND-AS / IFRS reporting

DYNAMICS 365 FINANCE & OPERATIONS · GREEN ENERGY Ten Entities, One Finance Platform

Green energy company · 10 legal entities · Dynamics 365 F&O with Power BI reporting

Finance unified across 10 entities, bank integration automating payments and reconciliation, MR and SSRS statutory reporting, and Power BI dashboards giving entity-level visibility.

10 entities, one platform · 1 group reporting standard · Real-time cash visibility

Why Clients Choose Us

THE IT PARTNER LANDSCAPE

ENTERPRISE STANDARDS. BOUTIQUE AGILITY.

LARGE GLOBAL SYSTEM INTEGRATORS

- ✓ Enterprise scale
